Important: Communication and Class WhatsApp Groups

As our programme continues to grow across several venues, clear communication becomes essential. We kindly ask parents to please keep the **CJS Info Group** unmuted, as this group is used only for important CJS-related announcements. Posting is restricted to admins only, so there will be no daily greetings or unrelated messages.

All **day-to-day training groups** are used for weekly attendance polls and session-specific communication, also managed by admins only. This system helps us plan sessions accurately, manage coaches and courts efficiently, and ensure every player receives the best possible coaching experience.

Your quick responses and support make a real difference, and we truly appreciate your cooperation as we work together for the benefit of our players.

New to Squash? Start Here.

If you're new to junior squash and feeling unsure about what your child needs, we've put together a simple guide just for parents. This page covers the basics — including the right shoes, protective eyewear, and what to wear on court — so you can feel confident you're getting it right from the start. You can find the full guide [here](#).

Frequently Asked Questions Page

Got questions? We've created an FAQ page on our website with clear answers to the most common CJS queries. It's quick, easy to read, and designed to help you find what you need fast. You can find the FAQ page [here](#).
